

JOB POSTING

Position Title: Systems Analyst / Developer

Tennessee Department of Finance and Administration Division of Budget

Location: Nashville, Tennessee

Summary:

This is a technical position, under the general supervision of the technology coordinator, supporting the business applications used in the Division of Budget. This position is executive service.

Duties and Responsibilities:

- Application Support – Development, maintenance, and operation of applications supporting the business processes in the Budget Division using Microsoft SQL Server integration services (SSIS) and analysis services (SSAS)
- Reporting – Modification of existing reports and development of new reports using Microsoft SQL Server reporting services (SSRS)
- Business Process Review – Participation in the evaluation, design, development, testing, and implementation of technology solutions to support improvements in business processes
- Technical Support – Liaison between end-users and IT support service entities

Qualifications:

- A bachelor's degree in information technology, computer science or other related curriculum, or a bachelor's degree in Business Administration or related curriculum, with an emphasis on information systems

Desired Skills and Experience:

- One (1) year work experience or more in systems analysis, design, development and implementation of budgeting and financial applications
- Technical Knowledge
 - Experience using .NET framework (version 4.5) including the MVC development modules
 - Experience using Microsoft SQL Server 2012+ including integration services (SSIS), analysis services (SSAS), and reporting services (SSRS)
 - Experience using Visual Studio
 - Experience using Microsoft Excel, with an emphasis on Power Pivot and Power BI tools
